NEUROPEPTIDES

Neuropeptides (1991) **20**, 267-270
© Longman Group UK Ltd 1991

Subject Index to Volume 20

A

Acidosis, metabolic, influence in a model of volume-controlled haemorrhagic shock in rats of thyrotropin releasing hormone on regional blood flow and, 233
Actinomycin D is a competitive and selective antagonist at NK_2 tachykinin receptors, 109
Adenosine triphosphate modulation of the efferent function of capsaicin-sensitive nerves in cardiac tissue, 225
Adrenal cortex: pituitary-adrenocortical response to acute and chronic administration of U-50 488H in the rat, 95
Adrenergic systems
  effects of atrial natriuretic peptide on the open-field activity of rats, 163
  interactions between anti-anaesthetic effects of thyrotropin releasing hormone analogue CG 3703 and, 9
  modulation of the efferent function of capsaicin-sensitive nerves in cardiac tissue, 225
Alveolar macrophages
  increased release in pulmonary inflammation and fibrosis of bombesin-like peptides from, 63
  modulation by bombesin-related peptides of interleukin-1 production by, 217
Alzheimer's disease: a speculative review of substance P and neurodegenerative disorders, 73
Amyotrophic lateral sclerosis: a speculative review of substance P and neurodegenerative disorders, 73
Anaesthesia: interactions between adrenergic systems and anti-anaesthetic effects of thyrotropin releasing hormone analogue CG 3703, 9
Angiotensin-converting enzyme and degradation of luteinizing hormone releasing hormone in glioma cells, 125
Antidepressant action of melanostatine: effects on focal potentials in slices of rat brain cortex, 87
Aorta, rat, calcitonin gene-related peptide-induced cyclic AMP cyclic GMP and vasorelaxant responses in, 115, 133
Atrial natriuretic peptide, effects on the open-field activity of rats of, 163

B

Benzodiazepines: localization of diazepam-binding inhibitor mRNA in the rat brain by high resolution in situ hybridization, 33
Blood
  effect in the rat of ovariectomy estrogen replacement on β-endorphin levels in, 175
  influence of thyrotropin releasing hormone on regional blood flow and metabolic acidosis in a model of volume-controlled haemorrhagic shock in rats, 233
Bombesin-like peptides
  increased release from alveolar macrophages in pulmonary inflammation and fibrosis of, 63
  modulation of interleukin-1 production in rat alveolar macrophages by, 217
Bronchus, human isolated, neuropeptide gamma as the most potent contractile tachykinin in, 79

C

Calcitonin gene-related peptide
  binding sites in trout tissues of, 181
  CGRP-induced cyclic AMP cyclic GMP and vasorelaxant responses in rat thoracic aorta are antagonized by blockers of endothelium-derived relaxant factor, 133
  and endothelium-dependent cyclic AMP cyclic GMP and vasorelaxant responses in rat abdominal aorta, 115
Calcium
  CA^{2+}dependent K^+ efflux: endothelin stimulates ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17
  and inhibition effect of cholecystokinin in human colonic lamina propria lymphocyte proliferation, 41
Cancer
  endothelin stimulates ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17
  evidence for thiol-dependent metallo-endopeptidase involved in degradation of luteinizing hormone-releasing hormone in glioma cells, 125
  natural killer cell activity in patients with neuro-endocrine tumours of the gastrointestinal tract, 1
Capsaicin
  modulation by adrenergic transmitters of the efferent function of capsaicin-sensitive nerves in cardia tissue, 225
  reflexogenic effects on neural afferents in the dog parietal pericardium of neuropeptides and, 191
Catecholaminergic and cholinergic mechanisms in the cardiovascular effects of thyrotropin releasing hormone, 247
Cerebellum
  localization of diazepam-binding inhibitor mRNA in, 33
  progastrin and its products in, 239
Cerebrospinal fluid levels of cyclo(His-Pro) in schizophrenia, 187
Cholecystokinin
  effects of corticotrpin-releasing hormone on rat forebrain levels of, 255
  inhibition effect in human colonic lamina propria lymphocyte proliferation of, 41

isocratic reverse-phase high-performance liquid chromatographic separation and radioimmunoassay used in the analysis of neuropeptides in brain tissue, 201
modulation of the transient potassium current in rat hippocampal neurones by, 151
Cholinergic and catecholaminergic mechanisms in the cardiovascular effects of thyrotropin releasing hormone, 247
Colonic lamina propria lymphocyte proliferation, inhibition effect of cholecystokin on, 41
Corticoropin-releasing hormone, effects on peptidergic neurons in the rat forebrain of, 255
Crustaceans: primary structure of two isoforms of the vitellogenesis inhibiting hormone from the lobster *Homarus americanus*, 25
Cyclic AMP and cyclic GMP: and vasorelaxant response to calcitonin gene-related peptide in rat aorta, 115, 133
Cyclo(His-Pro), increased cerebrospinal fluid levels in schizophrenia of, 187

D

Diazepam-binding inhibitor mRNA in the rat brain, localization by high resolution in situ hybridization of, 33
Dopaminergic system
effects of atrial natriuretic peptide on the open-field activity of rats, 163
increased cerebrospinal fluid cyclo(His-Pro) content in schizoprhenia, 187
Drinking and feeding in rats, no sexual dimorphism in oxytocin-induced inhibition of, 57

E

β-Endorphin
effect in the rat of acute and chronic administration of U-50 488H on plasma levels of, 95
effect in the rat of ovariectomy and estrogen replacement on hyothalamicpituitary and peripheral blood levels of, 175
Endothelin stimulation of ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17
Endothelium-derived relaxant factor, calcitonin gene-related peptide-induced cyclic AMP cyclic GMP and vasorelaxant responses in rat thoracic aorta are antagonized by blockers of, 133
Estrogen replacement, effect on hypothalamic pituitary and peripheral blood β-endorphin levels in the art of ovariectomy and, 175

F

Feeding and drinking in rats, no sexual dimorphism in oxytocin-induced inhibition of, 57
Fibrosis, pulmonary, increased release of bombesin-like peptides from alveolar macrophages in, 63
Forebrain, effects in the rat of corticotropin-releasing hormone on peptidergic neurons in, 255

G

GABA (gamma-amino butyric acid) levels in the rat forebrain, effects of corticotropin-releasing hormone on, 255
Gastrointestinal tract
actinomycin D is a competitive and selective antagonist at NK_2 tachykinin receptors, 109
gastric acid secretion in the rat is inhibited by oxytocin injected into the hypothalamic paraventricular nucleus, 169
inhibition effect of cholecystokinin in human colonic lamina propria lymphocyte proliferation, 41
natural killer cell activity in patients wth neuro-endocrine tumours of, 1
progastrin and its products in the cerebellum, 239
Glioma (cells)
endothelin stimulates ^{86}Rb efflux in rat C6-Bu-1 cells, 17
evidence for thiol-dependent metallo-endopeptidase involved in degradation of luteinizing hormone-releasing hormone in, 125
Glucagon, effect of neuropeptide Y on secretion in the pig of, 49

H

Heart
modulation by adrenergic transmitters of the efferent function of capsaicin-sensitive nerves in, 225
reflexogenic effects of capsaicin and neuropeptides on neural afferents in the dog parietal pericardium, 191
role of peripheral and central catecholaminergic and cholinergic mechanisms in th cardiovascular effects of thyrotropin releasing hormone, 247
High-performance liquid chromatography: isocratic reverse-phase HPLC separation and radioimmunoassay used in the analysis of neuropeptides in brain tissue, 201
Hippocampus, modulation by cholecystokin of the transient potassium current in, 151
Hypothalamus
β-endorphin levels in, effect in the rat of ovariectomy and estrogen replacement on, 175
gastric acid secretion in the rat is inhibited by oxytocin injected into the paraventricular nucleus, 169
localization of diazepam-binding inhibitor mRNA in, 33
pituitary-adrenocortical response to acute and chronic administration of U-50 488H in the rat, 95
vasoactive intestinal peptide levels in, in association with pre-ovulatory prolactin surge in the rat, 159

I

Immune system: inhibition effect of cholecystokinin in human colonic lamina propria lymphocyte proliferation, 41
Inflammation, pulmonary
bombesin-related peptides modulate interleukin-1 production by alveolar macrophages, 217
increased release of bombesin-like peptides from alveolar macrophage in, 63
Insulin, effect of neuropeptide Y on secretion in the pig of, 49
Interleukin-1 production by alveolar macrophages, modulation by bombesin-related peptides of, 217

K

Kyotorphin-hydrolyzing enzymes: identification and characterization inr at brain of two distinct peptidases, 103

L

Lamina propria lymphocyte proliferation, human colonic, inhibition effect of cholecystokinin on, 41
Lobster: primary structure of two isoforms of the vitellogenesis inhibiting hormone from *Homarus americanus*, 25
Locomotor activity: effects of atrial natriuretic peptide on the open-field activity of rats, 163
Lung(s) *see* respiratory tract
Luteinizing hormone-releasing hormone, evidence for thiol-dependent metallo-endopeptidase involved in degradation in glioma cells of, 125

M

Melanostatine (MIF-1), effects on focal potentials in slices of rat brain cortex of, 87
MSEL-neurophysin *see* Neurophysins

N

Natural killer cell activity in patients with neuro-endorcine tumours of the gastrointestinal tract: relation with circulating gastrointestinal hormones, 1
Neurodegenerative disorders and substance P: a speculative review, 73
Neurokinin A precursor: localization of beta-preprotachykinin mRNA in nodose ganglion, 145
Neurokinin (NK) receptors
  actinomycin D is a competitive and selective antagonist at NK_2 receptors, 109
  investigation by synthetic pseudopeptide analogues of the importantce of the N-terminal peptide bonds of substance P in binding to, 83
  neuropeptide gamma is the most potent contractile tachykinin in human isolated bronchus and acts via a 'non-classical' NK_2 receptor, 79
Neuropeptide gamma is the most potent contractile tachykinin in human isolated bronchus and acts via a 'non-classical' NK_2 receptor, 79
Neuropeptide Y
  effects of corticotropin-releasing hormone on rat forebrain levels of, 255
  effects on insulin and glucagon secretion in the pig of, 49
  modulation of the efferent function of capsaicin-sensitive nerves in cardiac tissue by, 225
Neurophysins: binding of vasopressin to the N-terminal sub-domain dissected from human MSEL-neurophysin through endopeptidase Lys-C, 211
Nodose ganglion, localization of beta-preprotachykinin mRNAin, 145
Noradrenaline, modulation of the efferent function of capsaicin-sensitive nerves in cardiac tissue by, 225

O

Oestrogen *see* Estrogen
Olfactory cortex, effects of melanostatine on focal potentials in slices of, 87
Opioid receptors: pituitary-adrenocortical response to acute and chronic administration of k receptor agonist U-50 488H in the rat, 95
Ovariectomy, effect on hypothalamic pituitary and peripheral blood β-endorphin levels in the rat of estrogen replacement and, 175
Oxytocin
  inhibition of feeding and drinking induced by, no evidence for sexual dimorphism in rats in, 57
  inhibition of gastric acid secretion in the rat by injection into hypothalamic paraventricular nucleus of, 169

P

Pancreas
  effects of neuropeptide Y on insulin and glucagon secretion in the pig, 49
  natural killer cell activity in patients with neuroendocrine tumours of, 1
Paraventricular nucleus, gastric acid secretion in the rat is inhibited by oxytocin injected into, 169
Parietal cortex, effects of melanostatine on focal potentials in slices of, 87
Parkinson's disease: a speculative review of substance P and neurodegenerative disorders, 73
Pericardium, parietal, reflexogenic effects in the dog of capsaicin and neuropeptides on neural afferents in, 191
Pituitary gland
  β-endorphin levels in, effect in the rat of ovariectomy and estrogen replacement in, 175
  pituitary-adrenocortical response to acute and chronic administration of U-50 488H in the rat, 95
  vasoactive intestinal peptide levels in, in association with the pre-ovulatory prolactin surge in the rat, 159
Potassium
  endothelin stimulates ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17
  modulation of the transient potassium current in rat hippocampal neurones by cholecystokinin, 151
Pre-protachykinin: localization of mRNA in nodose ganglion, 145
Prograstrin and its products in the cerebellum, 239
Prolactin, pre-ovulatory surge of, vasoactive intestinal peptide levels in the rat hypothalamus and anterior pituitary do not change in association with, 159
Propranolol: and interactions between adrenergic systems and anti-anaesthetic effects of thyrotropin releasing hormone analogue CG3703, 9
Protein kinase C
  and endothelin-mediated ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17
  and inhibition effect of cholecystokinin in human colonic lamina propria lymphocyte proliferation, 41

R

Radioimmunoassay: isocratic reverse-phage high-performance liquid chromatographic separation and RIA used in the analysis of neuropeptides in brain tissue, 201
Respiratory tract
  actinomycin D is a competitive and selective antagonist at NK_2 tachykinin receptors, 109
  bombesin-related peptides modulate interleukin-1 production by alveolar macrophages, 217
  increased release in pulmonary inflammation and fibrosis of bombesin-like peptides from alveolar macrophages, 63

localization of beta-prepreotachykinin mRNA in nodose ganglion, 145
neuropeptide gamma is the most potent contractile tachykinin in human isolated bronchus and acts via a 'non-clasical' NK_2 receptor, 79
Rubidium: endothelin stimulates ^{86}Rb efflux in rat glioma C6-Bu-1 cells, 17

S

Schizophrenia, increased cerebrospinal fluid cyclo(His-Pro) content in, 187
Sexual dimorphism in oxytocin-induced inhibition of feeding and drinking, no evidence in rats for, 57
Shock, haemorrhagic, influence of thyrotropin releasing hormone on regional blood flow and metabolic acidosis in a rat model of, 233
Somatostatin levels in the rat forebrain, effects of corticotropin-releasing hormone on, 255
Stress: no sexual dimorphism in oxytocin-induced inhibition of feeding and drinking in rats, 57
Substance P
investigation by synthetic pseudopeptide analogues of the importance of the N-terminal peptide bonds of, 83
isocratic reverse-phase high-performance liquid chromatrographic separation and radioimmunoassay used in the analysis of neuropeptides in brain tissue, 201
and neurodegenerative disorders: a specultive review, 73
precursor of: localization of betappreprotachykinin mRNA in nodose ganglion, 145

T

Thiol-dependent metallo-endopeptidase, evidence for involvement in degradation of luteinizing hormone-releasing hormone in glioma cells of, 125
Thyrotropin releasing hormone
analogue CG 3703, interactions between adrenergic systems and anti-anaesthetic effects of, 9
cardiovascular effects of, role of peripheral and central catecholaminergic and cholinergic mechanisms in, 247
influence on regional blood flow and metabolic acidosis in a model of volume-controlled haemorrhagic shock in rats of, 233
Trout, binding sites of calcitonin gene-related peptide in different organs of, 181

U

U-50 488H (k-opioid receptor agonist), pituitary-adrenocortical response in rat to acute and chronic administration of, 95

V

Vagus nucleus, effect on gastric acid secretion in the rat of oxytocin injected into, 169
Vasoactive intestinal peptide levels in hypothalamus and anterior pituitary do not change in association with the pre-ovulatory prolactin surge in the rat, 159
Vasoconstriction/vasodilation: alcitonin gene-related peptide-induced cyclic AMP cyclic GMP and vasorelaxant responses in rat aorta, 115, 133
Vasopressin binding to the N-terminal sub-domain dissected from human MSEL-neurophysin, 211
Ventrobasal thalamus: interactions between adrenergic systems and anti-anaesthetic effects of thyrotropin releasing hormone analogue CG 3703, 9
Vitellogenesis inhibiting hormone from the lobster *Homarus americanus*, primary structure of two isoforms of, 25
